

Replace unreliable cathodes **Lid Retrofit**

A lid retrofit from Sputtering Components will reduce your overall maintenance costs and boost your coater uptime, all with a fast return on your investment.

Save as much as \$8000 in maintenance costs each year for each cathode:

- Parts and repair
- Removal, re-installation, alignment
- Packing, shipping to OEM

Reduce coater downtime due to end block failures

Eliminate the need to stock spare end blocks.

Earn a return on investment in as little as three years.
