ROHS CERTIFICATION STATEMENT

December 12, 2016

Part Numbers: 111230 RAM Bar Asm. 3191S, 111260 RAM Outboard Support Asm., 108485 RAM SC58D Target Endcap Asm., and 112454 RAM Control Package RAM Bar, and similar.

SCI hereby certifies that to the best of its knowledge, the product(s) listed above comply with RoHS directive 2002/95/EC. Articles provided will contain less than or acceptable limits of Lead, Cadmium, Mercury, PBBs, PDBEs, and Hexavalent Chromium.

Methodology

Each component of the overall assembly was evaluated and approved by one of three methods:

SPECIFICATION – Used for components where the specification for the material does not allow for contaminants above acceptable limits.

CERTIFICATION – Components with RoHS certifications provided directly by the supplier or manufacturer of the item.

ANALYSIS – Components with testing performed on individual parts or at the batch level.

EXEMPT – Items which are currently exempt from RoHS Compliance.

Components are characterized into nine material categories; a summary of the results is detailed below.

CATEGORY	DESCRIPTION	COUNT	NUMBER OF ITEMS APPROVED BY			
			SPECIFICATION	CERTIFICATION	ANALYSIS	EXEMPT
A	Stainless Steel Fasteners	66		63	3	
B	Mild Steel Fasteners (Incl. Black Oxide)	4		4		
C	Stainless Steel Machined Parts	50	49		1	
D	Other Metallic Parts	36	8	14	14	
E	O-Rings	16		16		
F	Polymer parts	29		28	1	
G	Miscellaneous	59		45	6	8
	Total	260	57	170	25	8

Additionally, SCI conducts random audits of its suppliers using an accredited testing facility. A random sample of at least ten of the parts is sent for testing once per year.

You may request a detailed copy of the certification results and the last random audit from sales@sputteringcomponents.com.
