

Internal-Mount End Block CC80-Series

In a compact package, the CC80 is designed for 80-mm targets, making it an excellent choice for small systems or R&D systems.

The CC80 has a simple, single-ended belt-driven design with brushless power transfer and an outboard support for quick target changes, high reliability and easy, do-it-yourself maintenance.

Use the CC80 in new systems or upgrade from planar systems to increase the output and quality of your existing coater.

SCI can provide coater integration support.

TECHNICAL SPECIFICATIONS

- Electrical rating** ▶ 20 kW
1500 V, 50 A
(DC pr 80 kHz AC)
- Mounting** ▶ Any orientation
- Target** ▶ 80 mm ID
1000 mm max. length
- Maximum load** ▶ 250 kg horizontal
100 kg vertical
- Vacuum seal leak rate** ▶ $<3 \times 10^{-7}$ mbar-L/s
- Maintenance (typical)** ▶ Seal kit and bushings
every 2 years (30 min);
Static seals
